There are possibilities to test some creative work such as painting, calligraphy, music, dance, kungfu, Chinese opera and so on at TCG Nordica International Culture Center. Chinese, Swedish, or international teachers teach the subjects.

You will study approximately 20 hours/week. There will be practical work along the study, around the same amount of the time. The practical work will be at TCG Nordica and outside, where you will be responsible for some tasks in the culture exchange between East and West.
